Objective of 2023 Changes

The iktva program has sustained great success since its inception and we continue our collective efforts to contribute to the Kingdom's growth, aligning with Vision 2030, and developing a robust industrial base. In-line with these efforts, an alignment was reached with the Local Content & Government Procurement Authority (LC&GPA) to enhance local reliability by unifying local content measurements and authentication certificate to maximize Local Content in the Kingdom and ensure the efficiency of its processes.

Obtaining the LC Certificate

This guideline illustrates how suppliers can submit their final Local Content Certificate (LC) via the iktva Portal

- To obtain the Local Content Certificate, suppliers **must submit their annual Local Content score** by following the steps in the LC guide available on <https://lcpa.gov.sa>
- The Local content certificate (LC) must be approved and authenticated by the Local Content & Government Procurement Authority (LC&GPA)
- Suppliers must upload the final approved **Local Content (LC) certificate** to the **iktva Portal** by following the steps highlighted in this guideline.

Certification Process Map

The process map below outlines the entire iktva certification submission processes:
